## Your Health

**Pellagra**  
 Pellagra is an annoying disorder of the skin. Its prevention and cure are accomplished through the combined efforts of the medical, public health, educational and various social and economic agencies. Indeed, this ailment presents as economic as well as a medical problem.

Until recently little was known about the actual cause of pellagra. It is now established to be a vitamin deficiency disease. It results from a diet deficient in vitamin G.

The disease is most prevalent in some of the southern states. Faulty dietary habits are responsible for it. The United States public health service workers found that persons living exclusively on a diet of corn meal, white wheat flour, white rice, dried beans, white meat, salt pork, cornmeal or casein, are in danger of having pellagra. These foods do not contain enough of the dietary elements essential to the prevention of the disease.

As a result of the work of the late Doctor Goldberger and his co-workers in the United States public health service we know a lot about the disease. It has been found that the pellagra-producing factor is found in lean meat, eggs, milk, wheat germ, tomatoes and in a number of vegetables and fruits. It is contained in a pure culture of yeast. This was successfully used as an emergency measure after the Mississippi flood in 1927.

But do not get into the belief that you are a complete cure for pellagra. It only serves as a temporary relief measure. The disease can only be controlled completely by an adequate and varied diet.

The victim of pellagra has a red, scaly, discolored skin. As a rule, the face, neck and hands are involved. Within a short time the skin peels and falls in large quantities.

In addition to the skin irritation the patient complains of digestive disturbances, nervousness and weakness. In advanced cases there may be marked incontinence and hallucinations, stupor and convulsions.

It is important to remember that a good many disorders can be prevented by attention to the diet. When fresh fruits and foods are not available, canned products may be safely substituted. For example, canned pineapple, tomatoes and string beans contain adequate amounts of vitamin G and will help in the prevention of pellagra.

**Answers to Health Queries**  
 Q—What would cause red blotches on the face?  
 A—They may be due to an infection without any provocation. I do not know of any other cause, but do not know how to treat it. I can not afford an examination at this time.

A—It is important that you have an examination. You may or may not have a fever. It is not natural to run a temperature unless there is an underlying cause of disturbance.

## February Weather Drops Mercury Below Average

Five sub-zero days took Marion's February weather average five degrees below the statistical average and made residents of the city look with apprehension at fast-diminishing coal piles and gas with longing after Florida bound friends.

Weather bureau statistics show that February's temperatures for Marion should average 27.2 degrees but the 1935 Leap Year month readings averaged 22.2 degrees.

On two nights the mercury sank nine degrees under the zero line but that was as nothing compared to the February of 1929 when the official minimum reading was 22 below.

The highest reading last month was 38 degrees on the twenty-sixth only 10 degrees under the all-time high for Marion set in 1921.

Snowfall for the month totalled 9.50 inches, one inch more than the average for February. It was considerably under the record 7.75 inch fall in 1918. Another heavy snowfall was 20 inches in 1911.

Rainfall for the month came within six one-hundredths of the official average of 2.39 inches. Fourteen days of the month were partly cloudy, 10 were cloudy and five were clear from sunrise to sunset.

**M'GURN'S BROTHER SLAIN BY GANG**  
 By The Associated Press  
 CHICAGO, March 3.—Anthony McGurn, younger half brother of the slain Machine Gun Jack McGurn, was shot and killed by three gunmen last night in a little Italian restaurant.

He was slain just 15 days after McGurn's chief executioner, Al Capone, and suspect in the Valentine's Day massacre of seven gangsters in 1929 was shot to death in a bowling alley.

Police declared the same men who ended McGurn's life were last night's killers. De Mors was shot according to Police Captain John Stige because he boasted, "I know the guys that killed Jack. I'm going to get them."

**FLIER DENIES BEING ALONE WITH AMELIA**  
 By The Associated Press  
 LOS ANGELES, Calif., March 3.—A Paul Mantz flier and aviation expert testified yesterday in his contested divorce suit that he never was alone in his home with Amelia Earhart, house-headed aviatrix. He said:

"I never ate a meal with her alone. There was always a third one also present."

He said he was technical adviser for Miss Earhart on some of her long flights and they were close in his social life as well. He testified previously that he introduced that Miss Earhart and her husband had long frequent visitors at the Mantz home and that Miss Earhart had told him she was in Mrs. Mantz's absence.

**STANDARDIZED UNIFORMITY**

The simple mechanical details of cigarette manufacture are of surprising importance. Upon them depend the physical properties of the cigarette, such as weight, size, firmness, moisture-holding properties, uniformity of fill—uniformity of product—all of which have a far reaching effect on the character of its combustion and the constituents of its smoke.

In the manufacture of Lucky Strike Cigarettes all of these properties have been standardized with care for the perfection of A LIGHT SMOKE.

## Club Women Hear Discussion of Short Story

The technique of short story writing was the subject of an interesting talk by Miss Lucille Foreman, instructor of Journalism at Harding High school at a meeting of a group of clubwomen interested in the short story last night at the City library.

The talk was the first of a series of four to be given on subjects of the short story and poetry as a preliminary to the annual literary contest to be held in connection with the club.

**CHOICE OF FABRIC AIDS A CASUAL FROCK IN DOUBLE-DUTY ROLE**

Ambitious, isn't it, this pattern which you may select for any one of a number of roles? If you're one who likes to spend the morning on the porch, in the garden or paying neighborly calls, make it up in a pretty, novelty tub top or printed muslin or cotton shirt. On the other hand, if you want a cool, easy-on-the-eye frock for appearing your most feminine at supper, make it up in, let's say, an elegant batiste or cotton lace, and omit the pockets. Thus it's smart and charming for either part of a busy day, and exceptionally easy to make. You'll find a time-saving feature in cutting yokes and pretty flaring sleeves all-in-one.

Pattern 2682 is available in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 takes 3 1/4 yards 3 1/2 inch fabric. Illustrated step-by-step sewing instructions included. Price FIFTEEN CENTS (15c) in coin or stamps (coins preferred) for this Anne Adams pattern. Give plainly name, address and style number. STATE SIZE.
